

vilafonté

The *Vilafonté Series V* is a magnificent Corona Long Filler. This fine cigar has been blended to match the flavours of a bold red wine which are more subtle than that of a whiskey or brandy for which a cigar is traditionally rolled. It is a blend of Cubano Piloto in both Lijero and Seco as well as Olor Dominicano used as the trippa, or filler. The binder (capote) is Dominicana. The wrapper (cappa) is the finest-grade Sumatra available. The wrapper is quite oily and Cameroon looking. All of the tobacco is properly aged and cured.

The cigars spend 90 days on the shelf in the factory in Tamboril before being packed and shipped. With its oily wrapper and superb construction, this cigar burns evenly with a beautifully long and perfectly silver ash. The draw is always perfect, and the smoke flows well. The *Vilafonté Series V* has a solid, thick flavor; some would refer to it as distinct. It is creamy, spicy, and very smooth. Thick pillows of smoke dance from the tip of this fine cigar. The aftertaste is creamy and spicy and doesn't fade too quickly. It's a bit dry, yet sweet to the palate. The *Vilafonté Series V* is packed in a beautiful Spanish cedar box containing 25 cigars.
